2016 - 2019

Universitatea „Babeş-Bolyai”

Cluj

Computer Software Engineering And Economics

Now I'm studying microeconomics , macroeconomics , accountancy & managment but from next year I'll start with computer science .

Work Experience

May 2016 - Present

Group Five Software

Cluj

Junior Software Developer

I contributed to web applications using technologies like Symfony3 Framework, AngularJS and others mentioned in the skills , working here I also learned to debug , test and guaranty the quality of my code .

I learned to develop a new application from beginning to end and I've been in situations were I've been taking over someone else's code and get the job done (becouse he was sick :)) .
